

I am in a BellSouth Corporation area and requested a dry line to provide DSL service to my home the DSL provider is ABRIXIS (770-729-9699 )BellSouth Corporation will not provide a loop to allow ABRIXIS to provide DSL without a subscriber line ABRIXIS charge of \$44.00 is considerably less than Bellsouth \$75.00 + monthly fee for the same service which requires a phone service. Contacting the Georgia Public Service Commission referred this complaint to the FCC because FCC tariffs have preempted their jurisdiction. Bell South continues to monopolize the Atlanta market by thwarting competitive access to consumers. My home has limited access to communication resources. I am a private individual and access to communication resources is becoming monetarily prohibitive.
